

# *Broken Hearts Ministries*

January 2007

In 2007, God has opened doors of opportunity for us to minister in many places around the world. These places include the Philippines, India, Eastern Europe and Africa. Our goal and purpose in ministry is to address the special needs of orphan children. These opportunities include conducting children's camps, meeting primary medical needs, and construction work.

You can image how many needs exist that requires attention. The greatest among them is prayer. As we look to God our Father who supplies all our needs we earnestly solicit your prayers and the prayers of your church. We request that Broken Hearts Ministries be placed on your personal prayer list and we ask that the church pray for us regularly.

As we look into this year, we are in need of people who will commit to giving to meet the financial needs of this ministry. We are presently involved with the construction of 3 projects located in India, Uganda and Philippines. These projects include dormitories, medical clinics, kitchens and school buildings. Finances are needed to purchase materials and labor as well as volunteers to go and work on these facilities. Perhaps you or someone in your church is willing to be used of the Lord in this area.

We also have needs associated with the production of the children's camps. This year we are planning camps in Kenya and Uganda. Also we are praying about our response to an invitation to conduct a camp in Ghana. The need here includes volunteer workers to produce the program in these countries, child sponsors to allow the poorest of the poor to attend, as well as funds to acquire materials for the programs.

From a human perspective, these needs are overwhelming; however, we believe our Heavenly Father is ready to give them to us at the proper time. We are asking you to participate with us in 2007. Please pray and contact us about your involvement in this ministry.

May God richly bless you
