Broken Hearts Ministries

About Rita : Rita was born in Nepal Before coming to Blue Haven Children's Home, she faced so many problems. She has two brothers. In Nepal when she was six years old she was studying in second grade. At that time her younger brother was born and her mother became weak and sick. So she had to cook food and care for her mother and her brother. She could not go school because of she was busy working in the house. Sometimes they had nothing to eat. The people mocked them because of being a Christians. They had no money to eat food. Rita's dream was to leave Nepal and go to another place where their father and mother could get a good job.

In 2005 Blue Haven Children's Home was just starting and the leaders were looking for a family to live in the home and cook the food and take care of the children. Her father and mother were selected and so she got to become a member of Blue Haven Children Home. All her needs are provided by Blue Haven along with the other children. They enable her to attend an English medium school and now she can read and write in English. Because of Blue Haven Children Home she has been able to come this far and she is very thankful to God for all her Blessings in life. Now she has passed grade 10+2 with 63.4 %.

Rita Writes-----'When i was studying in class 8th i had desire to become a nurse. One of our girl Dolma she was suffering from Tuberculosis and the doctor has told that she will not live long I really took care of her in giving her medicine and giving her food she also wash her cloth as many people don't want to help this kind of patient as they think it will get to them but I never thought like that and was always ready to help her.'

She has the heart to serve the people and share the Love of God and wants to help Blue Haven Children's Home. She wants to become a Nurse and be a blessing to many people. Please do pray for her.

We want her to enrolled in Nursing College in district Kanpur which is about 60 miles away from Lucknow. She will be staying in a hostel in the same place where she will be studying. Please pray and help her so that she can become a great nurse and be able to stand on her feet and be a blessing for others. Below are her fee details:
